**Subject:** RE: Information Request extension

Sheila,

Per or prior discussion, as summarized below, please accept this email as Statoil's notice of those requests that Statoil will respond to by October 24, 2014:

Requests 15.f, 32-33, 39-43, 46-50, 58, and 60.

The above-referenced requests primarily relate to drilling and well operations, which is technical information that requires substantial time to compile and prepare responses. This additional time is also needed in order to verify the accuracy of requested data and information, and to ensure that we have compiled the pertinent data from the appropriate sources at the company.

Kind regards,

Ilana

**Subject:** Information Request extension

Sheila,

Thanks for speaking with me regarding the Region's proposal to grant an extension to Statoil pertaining to the CERCLA/CWA information request. As I understand the Region's proposal, Statoil would be granted an extension until October 13, 2014, to submit as much information as possible with the ability to submit additional information by no later than October 24, for anything else remaining, provided that I let you know by October 10 which responses will be submitted by October 24, with an explanation as to why Statoil needs the additional time.

We appreciate the Region's accommodation and will proceed as outlined above.

Kind regards,

Ilana
